

Dragon pencil top

1. Draw a dragon's head on a piece of paper. Add a rounded body, a wing and a tail. Cut out the dragon, then erase the pencil lines.

2. Lay the dragon back on the paper and carefully draw around it. Then, cut around the second dragon, along the outline.

The dragon shapes need to face each other.

3. Outline the dragons with a black felt-tip pen. Draw their arms and legs. Add a face on one of them, then add spots with a pencil, too.

4. Cut a strip of paper and roll it around the end of a pencil. Secure it with tape, then tape it to the back of one of the dragons.

Bend the wings out a little.

5. Spread glue all over the dragon, except for its wings. Press the other dragon on top and hold them until the glue sticks.
