

# COGHEART

Create your display & share the adventure...

Take inspiration from the cover and create a starry sky, the perfect setting for a daring adventure!

Design and cut out some airships to dart between the clouds and the stars...

Are Lily and Robert flying in one of the airships? Or are they running across the rooftops with Malkin the mechanical fox?

Cut out some rooftops to sit at the bottom of the display...

Draw and cut out some keys and cogs and write your name and the person you would take on an adventure.

**Cogheart** by Peter Bunzl is out on 1st September 2016.
